Objective: a 6-month internship in software development starting from September 2015

Professional Experience

- September 2014 – **Computer Science Manager**, *USEC*, Compiègne (France).
present I'm in charge of software development projects for local companies.
- Writing official documents (quotes, specifications, customer agreements, etc.)
 - Recruiting and mentoring students (those who develop our clients' projects)
- June 2013 – **Android and web developer**, *Self-employed (Auto-entrepreneur)*, Nantes (France).
September 2014 Developed and then updated the Android application and the website of the startup WHOWANNA.
- April 2014 – **Intern in software development**, *WhoWanna*, Nantes (France).
June 2014
- Migrated data onto a "cloud" solution (Clever Cloud)
 - Updated the Android application (added some features, graphical update)
 - Started to change the language and the DBMS used on the server: from PHP to Scala and from MySQL to PostgreSQL
 - Wrote internal documentation (L^AT_EX and a website) and set up a versioning system (Git)

Volunteer Experience

- 2015 – present **President and co-organizer of tech talks**, *HumanTalks*, Compiègne (France).
10-minute talks given once a month about programming languages, tools, software development, etc
<http://humantalks.com/cities/compiègne>

Education

- 2014 – present **Software Engineering**, *Université de Technologie de Compiègne*, Compiègne (France),
Expected June 2017.
- 2012 – 2014 **Two-year core studies diploma in Computer Science (DUT Informatique)**,
Nantes University Institute of Technology (IUT de Nantes), Nantes (France).
